

Meta Materials acquires Optodot's Patents and IP in a multi-million dollar deal

Meta Materials Inc. today announced it is acquiring the "Assets and Extensive IP Portfolio" of Optodot Corp., ARE's client, including 67 issued and 22 pending patents, for an aggregate of \$48.5 million. This comes shortly after CEO of Optodot, Dr. Steve Carlson, was recognized by the NYIPLA as 2022 Inventor of the Year for his groundbreaking innovations and patents awarded in lithium battery technologies.
