

Charley Macedo Presents myLawCLE Program on the Metaverse

On February 2, partner [Charley Macedo](#) will present a virtual myLawCLE program on the metaverse. Along with his co-presenter Hannah Taylor from Frankfurt Kurnit, Charley will discuss what is “a” metaverse and give traditional examples of where virtual space has been, review the visions expressed for “their” metaverses by Gemini, Facebook (now Meta), Microsoft and others and offer key technical issues to consider when considering how metaverse[s] are going to interact with our everyday existence.

[Register and learn more about the program.](#)
