

Event Spotlight: Charley Macedo to Speak at the 2021 World IP Forum on Best Practices for Protecting and Licensing Training Set Data and Software for Machine Learning and AI

Partner Charley Macedo will be a featured speaker at the [2021 World IP Forum](#), where he will speak about “Best Practices for Protecting and Licensing Training Set Data and Software for Machine Learning and Other Forms of Artificial Intelligence in the U.S.”

Charley’s panel will discuss best practices to protect and monetize such data and software, and explore:

- How data and software is used in machine learning and other forms of artificial intelligence
- Best practices used in the U.S. to protect data and software
- Best practices used in the U.S. to license data and software
